ACEID

The 12th Asian Conference on Education & International Development (ACEID2026)

March 22-27, 2026

Tokyo International Forum & Toshi Center Hotel, Tokyo, Japan & Online

Organised by The International Academic Forum (IAFOR) in partnership with the IAFOR Research Centre at the Osaka School of International Public Policy (OSIPP) at Osaka University, Japan, and IAFOR's Global Partners

iafor

The 12th Asian Conference on Education & International Development (ACEID2026)

Website: https://aceid.iafor.org/

Location: Held at Tokyo International Forum & Toshi Center Hotel in Tokyo, Japan & Online

Dates: Sunday, March 22, 2026 to Friday, March 27, 2026

Early Bird Abstract Submission Deadline: September 18, 2025*

Final Abstract Submission Deadline: December 12, 2025

Registration Deadline for Presenters: January 22, 2026

*Submit early to take advantage of discounted registration rates and scholarship opportunities.

We welcome your participation in and contribution to ACEID2026, in partnership with the IAFOR Research Centre at the Osaka School of International Public Policy (OSIPP) at Osaka University, Japan. This international conference encourages academics and scholars to meet and exchange ideas and views in a forum stimulating respectful dialogue.

With the IAFOR Research Centre, we have engaged in a number of interdisciplinary initiatives we believe will have an important impact on domestic and international public policy conversations. It is through conferences like these that we expand our network and partners, and we have no doubt that ACEID2026 will offer a remarkable opportunity for the sharing of research and best practice, and for the meeting of people and ideas.

The 12th Asian Conference on Education & International Development (ACEID2026) will be held alongside The 16th Asian Conference on Psychology & the Behavioral Sciences (ACP2026) and The 12th Asian Conference on Aging & Gerontology (AGen2026). Registration for one of these conferences will allow delegates to attend sessions in all three. We look forward to welcoming you to our Spring Tokyo Conference Series this year.

Conference Vision

To promote international exchange

The conference supporters and organisers endeavour to connect scholars from around the world to share important research and ideas in a spirit of mutual respect.

To facilitate intercultural awareness

We aim to promote intercultural events and discussions to place Japanese culture in dialogue with our international visitors.

To encourage interdisciplinary discussion

The presentation streams in the ACEID2026 programme reach beyond the border of their academic disciplines, drawing on intersections from across disciplinary boundaries.

To generate and share new knowledge

Conference organisers and supporters hope to connect scholars to engage in vital topics in education by sharing original research and perspectives.

About The International Academic Forum (IAFOR)

Founded in 2009, The International Academic Forum (IAFOR) is a mission-driven politically independent non-partisan and non-profit organisation dedicated to encouraging interdisciplinary discussion, facilitating intercultural awareness and promoting international exchange, principally through educational interaction and academic research. Based in Japan, its main administrative office is in Nagoya, and its research centre is in the Osaka School of International Public Policy (OSIPP), a graduate school of Osaka University.

Through its international, intercultural, and interdisciplinary conferences, research, and publications, IAFOR is a network hub for interdisciplinary discussion across Asia and beyond, connecting individuals and institutions across the globe, and the thought leaders of today with those of tomorrow.

IAFOR runs research projects and events in Asia, Europe, and North America in partnership with universities, think tanks, and learned societies. IAFOR has also worked on a number of multi-sector cooperative programs and events, including collaborations with the United Nations and the Government of Japan.

Conference Overview

Conference Programme Schedule

Day 1: Plenary Session, Cultural Workshop &
Welcome Reception
Day 2: Plenary Session & Conference Dinner
Day 3: Onsite Parallel Sessions
Day 4: Onsite Parallel Sessions
Day 5: Online Parallel Sessions

Presentation Formats

Present Onsite
- Oral Presentation (25 minutes)
- Poster Presentation (60 minutes)
- Workshop Presentation (50 minutes)
- Panel Presentation (75 minutes)

Present Online
- Live-Stream Presentation (25 minutes)
- Pre-Recorded Virtual Presentation
- Virtual Poster Presentation

Venues

This year's conference will take place between two venues in central Tokyo, each offering a unique experience for our plenary and parallel programmes.

Tokyo International Forum
An iconic landmark of contemporary Tokyo, the Tokyo International Forum is renowned for its striking architecture and modern design.

Toshi Center Hotel
Just three minutes from Nagatacho Station, this centrally located hotel offers a convenient base near the Imperial Palace and National Diet. It's within easy reach of Akasaka, Shinjuku, Shibuya, and Ginza.

The IAFOR Way: International, Intercultural, Interdisciplinary

The IAFOR Conference Experience

Registration Desk

When you arrive at an IAFOR conference, you'll be welcomed by our friendly regular staff. They'll check you into the event, provide your printed conference guide and name badge, and ensure you feel at home from the start.

Information Sessions

Information is provided about the organisation, the design of the conference, and a range of frequently asked questions, from how to get the most out of your conference experience to publishing opportunities, and ways to get more involved.

Welcome Reception

Held on one of the conference opening days, the Welcome Reception is a great opportunity to mingle with fellow delegates and start some conversations, and try a glass or two of something local!

Keynote Presentations

Keynote presentations are designed to reach across the confines of the university to engage with other professions. Keynote speakers speak from their discipline, but speak to both their peers and those in other disciplines.

Plenary Sessions

Plenary content is primarily organised over the opening days of the conference, and you will hear leading thinkers discussing zeitgeist issues and big ideas during these sessions, in the form of keynote addresses, panel discussions, or roundtables.

Parallel Sessions

The parallel sessions are where original research is presented and then discussed by fellow panellists and the audience, and an important opportunity to disseminate, share, and receive feedback. They are a chance for you to hear the latest research in your and related fields.

An IAFOR conference is organised over several days onsite (usually between four and six), and includes hundreds of hours of programming to excite the mind. Added to this is live and recorded access to the online livestream sessions, as well as access to the pre-recorded virtual content and plenary sessions. Many personal and professional partnerships and collaborations have been forged and consolidated through IAFOR conferences over the years, and across the boundaries of nation, culture, and discipline, resulting in a myriad friendships, partnerships, projects, and career opportunities.

An IAFOR conference typically brings together hundreds of people from scores of countries. Like you, they are open and engaged, and like you, they are looking to write their own IAFOR stories. We encourage your active and open participation throughout the event!

Nurturing global collaborations; that's the IAFOR Way.

Networking Opportunities

Our conferences are designed to offer countless networking opportunities to make and consolidate personal and professional connections, reconnect with colleagues, and meet new friends in a spirit of convivial collegiality.

Forum Sessions

We want to engage and harness both the individual voices and collective intelligence of our conference participants as they respond to questions around zeitgeist issues, which helps us as an organisation be responsive and shape future programmes.

Poster Presentations

A poster presentation is a convivial way to present one's research. It provides a less formal but more interactive presentation experience, as it involves more discussion and dialogue between presenters and their audience, allowing conversations to develop in a more relaxed way.

Capacity-Building Sessions

Workshops allow great interactive engagement between delegates, and relaxed opportunities to engage and share, and attendees enjoy the easy 'takeaways'.

Cultural Events

As two of our three watchwords are 'international' and 'intercultural', we take advantage of the physical location of each conference to try and offer delegates a taste of the host city or country, with cultural events scheduled within the programme.

The Conference Dinner

The Conference Dinner is a separately ticketed event, and is an opportunity to engage with fellow delegates over some delicious food in some memorable locations. The conference dinners are always lively spaces for great times.

Engage with One of IAFOR's Largest Academic Forums in Tokyo

The Spring Tokyo Conference Series has a long history of joining international scholars and industry professionals together in Japan's capital. In 2025, over 839 delegates from 62 countries gathered in to Tokyo to discuss new research and challenges in the fields of international education, in Asia and beyond. Attending the conference will connect you and your research with a longstanding international, intercultural, and interdisciplinary network.

Participate in the Conference Online

As part of IAFOR's internationalising mission and commitment to accessibility, we are dedicated to providing platforms that make presentation and publishing possible for everyone. IAFOR's purpose-built online platform provides structured accountability and reporting for conference participation and attendance, both physical and virtual.

What is an Online Presentation?

For many academics, Online Presentations are an excellent option, particularly for presenters who are unable to attend a conference in person, as they enable authors to participate in the conference and provide all the same publishing opportunities using online technologies.

IAFOR facilitates **Live-Stream Presentations** that allow real-time interaction between attendees during the online day of the conference. This creates opportunities for interaction, knowledge transfer, and feedback in the form of questions and critique. **Virtual Presentations** are pre-recorded and added to the **IAFOR Online Video Archive** before the conference begins, where they remain indefinitely.

The Benefits of Online Presentation:

Present

☑ Present to an international audience, and receive a certificate of presentation

☑ Engage with audience members through online Q&A sessions

Participate

☑ Share, Comment, and Discuss your video presentation with peers from around the world

☑ Participate in plenary presentations and special sessions via live-stream

Publish

☑ Publish your final paper in the Conference Proceedings, indexed with an ISSN

☑ Have your paper listed, indexed, and searchable online in the IAFOR Research Archive

Online Presenters enjoy all of the following:

- Presentation published in IAFOR's Online Video Archive
- Final Paper published in the Conference Proceedings (optional)
- Listed in the Online Programme/Abstract Book
- Rigorous double-blind peer review acceptance standards
- Real-time engagement and interaction
- Access to plenary presentations via live-stream

IAFOR events are among the most diverse on Earth

Bridging divides of nation, culture, and discipline; informing and shaping ideas, research, practice, and policy in a comparative and contrastive space, IAFOR encourages the sharing and nurturing of diverse ideas.

Over the past year, more than 4,500 delegates from more than 120 countries have participated in an IAFOR event.

IAFOR's Conference Themes for 2025-2029

IAFOR's conference programme provides an essential comparative and contrastive space for people to engage in multidisciplinary research across borders of nation, culture, discipline, and professions. We encourage mixed approaches and methodologies, combining theory and practice between and across the disciplines, and we look to harness the collective intelligence of our International Academic Forum in addressing some of the most pressing issues of our time. Through the implementation of new formats in our conference programme over the last year, including Intelligence Briefings, Keynote Interviews, and The Forum, we gathered insights into what has been discussed at the theoretical and policy levels, identify the challenges, and the outlook for best practices in tackling global contemporary issues, which we have identified as the themes for 2025-2029. Our four themes can be seen as standalone themes, but they are also very much in conversation with each other. Themes may be seen as corollaries, complementary, or in opposition/juxtaposition with each other. The themes can be considered as widely as possible and are designed, in keeping with our mission, to encourage ideas across the disciplines.

1. Technology and Artificial Intelligence

Examines the rapid pace of technological advancements, aided most particularly by those driven by artificial intelligence and its enormous and growing impact in all fields.

2. Humanity and Human Intelligence

Asks us which principles, values, and attributes we wish to encourage, protect, and nurture and how we accomplish this. Technological advancements constantly ask us to reconsider and reimagine what it means to be human, including questions regarding communication, creativity, inclusivity, ethics, and care.

3. Global Citizenship and Education for Peace

Consider our existence and coexistence with each other, within our communities and places of belonging, and with peoples of different countries, cultures, and backgrounds, as well as with our environment and our planet.

4. Leadership

The continuing importance of leadership as a skill, particularly in light of difficult times, where recognising and encouraging best practices in leadership at all levels of society is critical.

Conference Themes in Theory, Policy, and Practice

Many theories are born and initially tested in the academy, informing discussions in the public sphere that influence policy. IAFOR represents a unique combination of engagement emerging from the collaborative efforts of senior policymakers, administrators, and individuals working on the ground or in the field. IAFOR has made this rare combination of equitable theoretical and practical exchanges the standard for our organisation and represents a valuable model for how science should be done. We will develop conference and institutional programmes and publications around these themes as well as capacity building sessions for our conference programme over the next five years. It is our aim with the implementation of these themes, alongside the implementation and continuing refinement of new formats, to best harness the unique arena IAFOR and its network have built in regards to pressing issues of today and the future.

Submission Streams

The Conference Programme Committee welcomes papers from a wide variety of interdisciplinary and theoretical perspectives, and submissions are organised into the streams and sub-streams listed below:

- Diversity in Global Contexts
- Education & Socio-Economic Development
- Education & Development: Local & Global/ Domestic & International
- Education: Public & Private Partnerships

- Economics & Management of Education
- Literacy: Poverty & Sustainability
- Innovation & Value

Sub-themes

Teaching & Learning
- Learning Experiences, Student Learning & Learner Diversity
- Teaching Experiences, Pedagogy, Practice & Praxis
- Assessment Theories & Methodologies
- Curriculum Design & Development
- Adult, Lifelong & Distance Learning
- Education & Difference: Gifted Education, Special Education, Learning Difficulties & Disability
- Interdisciplinary, Multidisciplinary & Transdisciplinary Education

Educational Structures
- Educational Policy, Leadership, Management & Administration
- Educational Research, Development & Publishing
- Professional Training, Development & Concerns in Education
- Primary & Secondary Education
- Higher Education

Community & Society
- Education, Sustainability & Society: Social Justice, Development & Political Movements
- International Education

Language & Culture
- Language Development & Literacy
- Foreign Languages Education & Applied Linguistics (including ESL/TESL/TEFL)
- Challenging & Preserving: Culture, Inter/Multiculturalism & Language

Psychology, Mind & Brain
- Mind, Brain & Psychology: Human Emotional & Cognitive Development & Outcomes within Educational Contexts
- Counselling, Guidance & Adjustment in Education

Innovation & Technology
- Design, Implementation & Assessment of Innovative Technologies in Education
- Nurturing Creativity & Innovation: New, Innovative & Radical Education
- Knowledge Creation, Preservation & Access: Curation, Librarianship, Information & Archival Science

IAFOR Conference Report and Intelligence Briefings

IAFOR produces conference reports that provide concise and coherent overviews of the ideas, conversations, and areas of research present. These include key themes and takeaways, referencing programme(s), speakers, and attendees, which are curated and archived for both those who attended the event and those who did not to stay abreast of many of the developments and insights provided by the conference and the collective intelligence of its participants. The reports are not meant to be, and indeed cannot be, exhaustive, and yet they aim to make a significant intellectual contribution drawn from the unique collaborative and contrastive space of IAFOR events.

Read the latest ACEID/ACP/AGen2025 Conference Report and Intelligence Briefing
[Conference Report and Intelligence Briefing (ISSN: 2759-4939)](#)

The conference's plenary programme combined all four IAFOR themes of Humanity and Human Intelligence, Technology and Artificial Intelligence, Global Citizenship and Education for Peace, and Leadership to discuss critical issues around marginalised youth, climate refugees, the empowerment of the elderly, artificial intelligence, female leadership, and global citizenship. Using an interdisciplinary lens, keynote speakers and panellists looked at these issues from an educational, psychological, and gerontological perspective, urging for stronger international collaboration.

Read more in the ACEID/ACP/AGen2025 Conference Report for key insights and highlights.
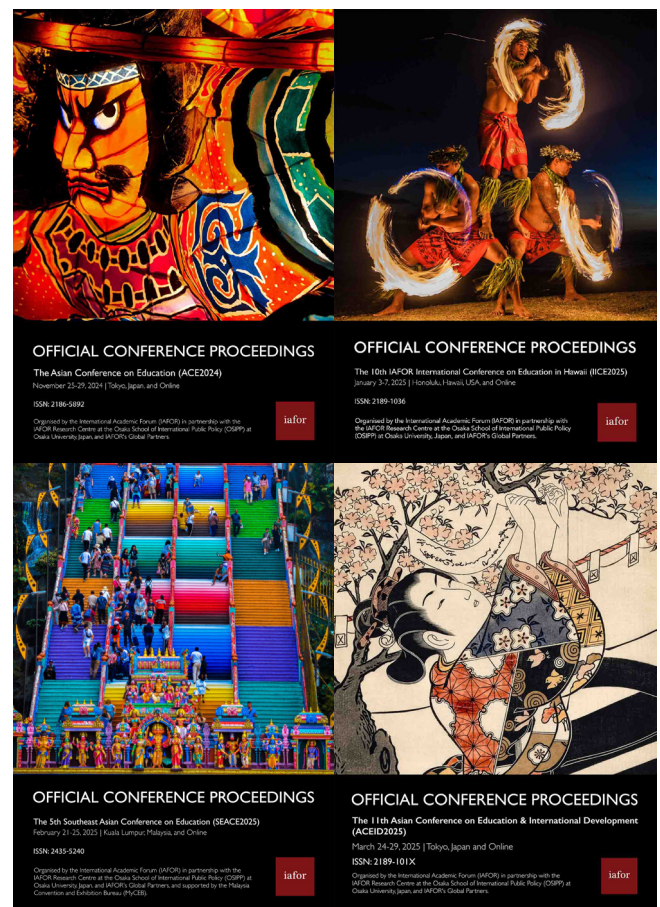

Publishing Opportunities

IAFOR Journals

IAFOR believes in "Open Access" publishing and, since 2009, has been committed to maintaining an online searchable research archive that offers free access to anyone, anywhere, where there is Internet access, regardless of institutional affiliation or scholarly rank. IAFOR publications are accessible on the website (Open Access) to researchers all over the world, completely free of charge and without delay or embargo. Authors and contributors are not required to pay charges of any sort towards the publication of IAFOR journals.

Conference Proceedings

If your submission has been accepted and you presented the work at the conference, you are encouraged to submit a full paper via the online submission system for inclusion in the Conference Proceedings, which will be made available online.

IAFOR Conference Proceedings are Open Access research repositories that act as permanent records of the research generated by IAFOR conferences. Please note that works published in the Conference Proceedings cannot be considered for publication in IAFOR journals and Conference Proceedings are not peer-reviewed.
